Cumulative performance of a hypothetical \$10,000 investment in FAM Dividend Focus Fund assumes all dividends and capital gains were reinvested. The returns are net of the Fund's expenses, but do not reflect the payment of any brokerage commissions or brokerage costs incurred as a result of buying or selling FAM Dividend Focus Fund shares or trading FAM Dividend Focus Fund shares on an exchange and do not reflect the deduction of taxes to which an investor would be subject as a result of owning or selling shares of FAM Dividend Focus Fund. If they did, the returns would be lower than those shown.

Past performance is not indicative of future results, current performance may be higher or lower than the performance date quoted.

Investment returns may fluctuate; the value of your investment upon redemption may be more or less than the initial amount invested. All returns are net of expenses.

Important Risk Information: Please consider a fund's investment objectives, risks, charges and expenses carefully before investing. The FAM Funds prospectus or summary prospectus contains this and other important information about the FAM Dividend Focus Fund and should be read carefully before you invest or send money. The principal risks of investing in the fund are: stock market risk (stocks fluctuate in response to the activities of individual companies and to general stock market and economic conditions), stock selection risk (Fenimore utilizes a value approach to stock selection and there is risk that the stocks selected may not realize their intrinsic value, or their price may go down over time), and small cap risk (prices of small cap companies can fluctuate more than the stocks of larger companies and may not correspond to changes in the stock market in general).
